

Top 10 Reasons

To Partner With Elevated Resources

ELEVATED
Resources Inc.

www.elevatedresources.com

1

We cater to mid-market companies

Elevated Resources is fully focused on providing world-class contingent labor managed services and technologies to mid-market companies. We understand the challenges and opportunities of these organizations and have developed forward-looking solutions that are bringing big-company value to mid-sized organizations.

2

Leading-edge analytics

ELEVATE Analytics gives customers an enhanced level of analysis, reporting and metrics on how their contingent talent acquisition processes are supporting business talent needs, monitors labor spend, and provides detailed comparisons of talent resources across the supplier base. Additionally, our technology partnership with GoodData enables next-level intelligence and reporting.

3

Secure in the cloud

Your organization's data is safeguarded 24/7 through Elevated Resources' partnership with Microsoft® Azure for global technology hosting and data privacy. No matter the size of your organization, we can scale to meet your needs while protecting your valuable data assets.

4

Easy to implement, even easier to use

The ELEVATE platform is easily configurable and highly supportive of your organization's unique business needs and is built for the collaborative nature of talent acquisition and management. Our SaaS-based, multi-tenant solution allows you to rapidly tailor the application to fit your specific workflow and reporting requirements. We've streamlined the end-to-end, req-to-check processes to make sourcing quality candidates a breeze.

5

Different workstreams for different business units

Our Network/Client architecture supports organizations comprised of multiple businesses with disparate business processes allowing each business unit to implement its workflow to support its own requirements.

6

Streamlined approach for Light industrial environments

Our ELEVATE *LI+* version of the platform targets the unique needs of our light industrial customers. We enable a streamlined, direct-to-supplier sourcing workflow with mass-action capabilities throughout, advanced rate card administration features, and innovative time-capture solutions.

7

Special features for professional/tech

Our ELEVATE *Professional* version of the platform features advanced supplier collaboration capabilities, blind bid functionality, a mobile-direct application for talent engagement, advanced analytics powered by GoodData and resource planning for total workforce management.

8

Staffing firms love us

Staffing firms have full visibility into the fulfillment process with real-time status of their submittals, feedback on their candidates, status and rates of other firms' submittals on a requirement, and status of their payments. Because we collaborate, and don't compete with our staffing firm network, your organization benefits by accessing the widest range of top talent

9

Ready for direct sourcing

The competitive landscape of today's contingent workforce makes it difficult to find and attract the most qualified candidates during the brief time period when they may be available. With ELEVATE Exchange, companies can plug into a talent pool of highly qualified, pre-vetted resources to accelerate the sourcing and engagement of these talented workers for their short-term project needs.

10

Mobile apps

Elevated Resources surpasses industry boundaries with its mobile-first talent pool membership and engagement platform, ELEVATE Mobile Direct. The mobile app is loaded with a rich feature set developed to enhance connections between employers and their contingent pools of talent.
